

Charleston
Police Department

Citizens Police Academy

The Charleston Police Department's Citizens Police Academy consists of a 11 week law enforcement program open to anyone interested 18 years of age and older. The academy is held twice per year in the spring and fall. Participants meet on Tuesday evenings from 6:00 pm to 9:00 pm at the Charleston Police Department Training Center. Each week, a different law enforcement topic is presented with classroom and hands-on instruction by police officers. A police ride along is also part of the class. This academy is offered free of charge to Charleston and surrounding residents and business owners. Applications are accepted year round and are available on our CPD website.

Find us on Facebook at Charleston Police Department Community Services and on the web at www.charlestonwvpolice.org.

WV

HELP

APP

WV HELP provides instant access to telephone numbers and resources available in West Virginia when you are dealing with a victim experiencing crime, violence, or abuse. This app is especially helpful to anyone working with children maltreatment. WV HELP provides information for each of West Virginia's 55 counties, and also at the state and federal level.

To use the app, simply select your county, choose a resource, and hit call to be connected to the given resource. WV HELP allows you to save resources as your favorite to provide even faster access in the future.

This app is strongly recommended for law enforcement, child protective services, prosecutors, victim advocates, teachers and child advocacy centers.

WV 211

FIND HELP

We are here to help.

Every day thousands of people across North America turn to 211 for information and support - whether financial, domestic, health or disaster. 2-1-1 is a free, confidential referral and information hotline that connects people from all communities and of all ages to essential health and human services they need, 24 hours a day, seven days a week.

Get Connected, Get Answers

Let's get Charleston UP TO CODE!

Charleston is the capital city of West Virginia, and our elected leaders, staff, and citizens work every day to develop our city as the cultural, recreational, and business capital of the Appalachian Mountain region. In support of that mission, this brochure was designed to inform property owners of the most common violations of zoning and property maintenance codes occurring within our city, so that our citizens are armed with the information they need to prevent these violations in the future.

Inoperable Vehicles

An inoperable vehicle is one that does not display a current license tag, is not equipped with all the parts that are required to legally and safely operate it on public streets, and/or cannot be driven under its own power. Inoperable vehicles must be stored in an area that is screened from view by walls and a roof. However, one inoperable vehicle may be stored in an area not screened from view for up to 7 days as repairs or arrangements for alternative storage are made.

Surfacing

Areas used for off-street parking must be surfaced with a solid material with sufficient strength to support the vehicles loads to be imposed. In the case of single family and duplex dwellings, angular and interlocking gravel may be used if proper edging is installed to keep the gravel from entering the yard or right-of-way, and if the area connecting the parking space to the street is paved.

Recreational Vehicles

Recreational vehicles and trailers designed to be towed by another vehicle must be stored on a paved surface and parked behind the front building line. However, parking of recreational vehicles in the front yard for the purposes of visitation, packing and/or unpacking for travel is permissible for a maximum of 7 consecutive days, with a maximum of 14 days per year.

Open Storage

The storage, collecting, dismantling, salvaging or repairing of more than one piece of machinery, including inoperable vehicles and appliances, must be screened from view by walls and a roof.

Junk, Garbage & Debris

Junk, garbage and debris are prohibited from being left in the yard and must be disposed of properly. This includes, but is not limited to, auto parts, appliances, furniture, building materials, tires, discarded paper, cardboard, plastics, etc. Tree trimmings, fallen limbs, and yard waste must also be properly disposed of.

Garbage may be set at the curb for pick up no earlier than 7 pm the evening before pick up is scheduled for the neighborhood. Contact the City's Refuse & Recycling Department at 304.348.6831 for more information or to schedule pick up of larger items.

Yard Maintenance Standards

Grass and weeds taller than 10 inches in height are prohibited. If a property owner fails to respond appropriately to the City's notice of violation, the City or a contractor hired by the City may enter the property, eliminate the offending grass and weeds, and pass the cost of that removal on to the owner of the property.

Vacant & Unsecured Structures

Structures which are unprotected as a result of the omission or disrepair of windows, doors, hatchways or other enclosures are required to be secured in order to prevent further deterioration and/or unauthorized entry. If a property owner fails to respond appropriately to the City's notice of violation, the City or a contractor hired by the City may enter and secure the property, passing the cost on to the owner of the property.

- Additional protection can be obtained by planting vines and bushes along the sides of the buildings. They help keep vandals away from the walls and cover areas that might otherwise be vandalized.
- Have plants at sidewalk level. If raised planter boxes are used, the sides should be at least 4 feet high or their tops should be uncomfortable for seating. By making them very narrow and allowing plants to grow over them, it will make them less desirable.
- Install surveillance cameras to cover public areas. Have security personnel monitor these cameras and ask persons engaged in prohibited conduct to leave the property. Security personnel should also patrol the property at random times.
- If security personnel are not available or if it is not practical to monitor the cameras all the time, install video analytics or intelligent video software in your camera system. It will alert you when something suspicious occurs. Lights could be turned on at night when motion is detected, and audio announcements could warn trespassers that the police would be called if they do not leave the property immediately.
- If signs stating that security or surveillance cameras are installed are posted, and the cameras are not monitored all the time, the warning should also include that caveat. This is important in keeping people from having a false sense of security and expecting help in the event they are attacked.

Signs The sign regulations prohibit the use of the following types of signs:

- banners, pennants and streamers
- portable signs
- roof signs
- digital signs
- signs that include flashing lights or moving parts

The ordinance also prohibits the erection of a sign on a tree or utility pole and temporary signs in a public right-of-way.

A sign structure no longer containing a sign must be removed, as must any sign which no longer advertises a legitimate business, product or service.

The ordinance also regulates, the size, height, number, and location of signs to be placed on all commercial and non-residential properties.

Fences

On residentially zoned properties, fences may not exceed 4 feet in height in the front or street side yards. Fences in side and rear yards are permitted at up to 6.5 feet in height. They may be constructed in a wide range of materials, including but not limited to wood, stone, brick, and vinyl. Razor wire and electrified wire are prohibited.

On commercially zoned properties, fences can be up to 10 feet in height.

On industrially zoned properties, fences can be up to 15 feet in height.

In all cases, a clear vision triangle must be maintained at street intersections and driveways.

DID YOU KNOW?

- The City of Charleston's Building Commission employees 8 inspectors to enforce the International Building Code and the International Property Maintenance Code throughout the City of Charleston. The most common violations they address involve garbage and debris, yard maintenance, and vacant and unsecured property. With questions on these and related items, contact the Building Commission at 304.348.6833.
- The Planning Department employs 2 zoning administrators to enforce the City of Charleston's Zoning Ordinance. The most common violations they address involve inoperable vehicles, recreational vehicles, open storage of machinery, prohibited signage, and fences. With questions on these and related items, contact the Planning Department at 304.348.8105.
- Code violations can be reported anonymously by phone to the appropriate City department or online at [http:// www.charlestonwv.gov/government/citizen-support](http://www.charlestonwv.gov/government/citizen-support). Our enforcement officers will not, under any circumstances, share the identity of the individual reporting the violation.
- When reporting a violation, please include the specific address of the property to be evaluated. If the address is unknown, describe the location in as much detail as possible, providing landmarks and identifiers that will enable enforcement officers to quickly locate the property in question.
- Any work beyond the general maintenance of a property requires City permits. This includes, but is not limited to, new construction, remodeling, reroofing, plumbing, and electrical work. Additionally, the installation of signage, fencing and paving requires City permits. When in doubt, contact the City to inquire prior to undertaking any project on property within the City of Charleston.
- If a property owner does not respond to the required legal notifications, the City can mow high grass and weeds or secure a vacant property and bill the property owner or place a lien on the property.
- City staff is available to attend neighborhood meetings to review and explain code requirements. Contact the Building Department at 304.348.6833 and the Planning Department at 304.348.8105 to request our involvement in your next discussion on the condition of properties in your community.

Tips for Avoiding Problems with the Homeless

Talk to the Charleston Police Department Community Services Division, Lt. P. Perdue, about any problems with homeless people.

The following tips will help you avoid problems with homeless people.

- The signs should be at least 18 by 24 inches in size, have a font visible from the nearest public street, not be accessible to vandals and be posted at the entrances - spaced evenly on the boundaries of the property.
- Use caution is dealing with them. Do not offer food or money. It may encourage more panhandling. If you are inclined to help the homeless, it is better to contribute to local charities, missions, food banks or social service organizations that assist the needy.
- Do not permit anyone to camp or loiter on your property.
- Do not allow anyone to store shopping carts, bedding or other personal belongings on your property.
- Restrict access to sidewalk overhangs, alcoves, or other areas protected from inclement weather.
- Lock or remove handles from water spigots.
- Keep trash dumpsters locked when not being filled or emptied.
- Secure outside storage sheds or containers.
- Lock or turn off exterior power outlets.
- Lock gates after hours.
- Install motion-activated exterior lighting after hours.
- Trim landscaping to eliminate hiding places.
- Canopies of mature trees should be maintained at least 8 feet above the ground.
- Bushes should be trimmed to less than 3 feet except where privacy or environmental noise mitigation is a primary concern, or where higher plants would not block any views/lighting/camera coverage or provide hiding places.
- Keep property free of trash, litter, junk, etc.
- Use graffiti-resistant paint or anti-graffiti coatings on the sides of the building and any other design features that could be vandalized.
